

The image features a highly decorative Art Deco style frame. The frame is composed of thick, stylized lines in shades of brown, orange, and green, with intricate scrollwork and circular motifs. The background consists of a sunburst pattern of thin, radiating lines in a light tan color, set against a darker brown background. The overall aesthetic is reminiscent of the 1920s or 1930s.

MULTIFORMS

A DRUPAL MODULE FOR
THE QUICK CREATION OF
CONTESTS AND SURVEYS

Presented For the Vancouver Drupal Users Group - Oct. 18, 2007

WHAT IT IS

- Created for the Georgia Straight to minimize setup and development time for contests and surveys
- Allows quick creation of contests and surveys for publishers: newspapers, radio, television, blogs
- Focused on ease of use and automation rather than being everything to everybody
- Designed with the help of Geoff Burke and Miles Keir

FEATURES

- “Snippets” (reusable groups of fields)
- Random draw capability
- Integrated email referrals
- Scheduled closing date/time and message
- Ability to pick which form fields are key fields
- Actions Module integration
- Plugin field architecture using hooks
- Export, view, edit, purge submission data

DEMO

[Insert demo here]

ROADMAP

- User-specific "snippets" (currently global)
- Option to allowing registered users to edit their submissions
- Complex field type support (multiple choice, etc.)
- More field types (field, image, etc.)
- More granular access control

WISHLIST

- Logic for conditional branching and action calls
- Freeform structure of sections and forms (currently two-level)
- Submissions as nodes
- More ways of integrating with other Drupal modules
